German Level-2 Evening batch-

- It was an excellent journey of learning a new language.
- It was quite exciting and enjoyable
- Classes were conducted like keeping in mind that the students were completely new to the language. Beginning with alphabets to games based on grammar, songs, role-plays and more.
- The activities and games based on grammar and speech helped us a lot in improving our speaking and writing skills.
- This language is going to help us all in our future lives.

Spanish Level-4

- Learning Spanish from SIFIL has always been an awesome experience.
- Though very busy in my profession as an architect, I always wanted to learn a foreign language.
- I joined SIFIL for Spanish and thought of completing at least 2 levels.
- But the overall experience was so fun-filled that I continued learning and am doing level 4 of Spanish now.
- Teachers are very good, helpful, with impressive skills of teaching. I enjoy every class here. For me, SIFIL and all its professors are the best.
